Šiauliai E-ticket card

- First Šiauliai e-ticket card was issued 22 of December, 2014
- Now there are more than 78000 clients in database

E-ticket card structure

- Card is MIFARE Classic 4k
- Card structure is compatible with Vilnius, Kaunas and Klaipėda cards
- There are sectors for e-purse and two fixed-terms tickets in card

Equipment in buses

- Cash register (for selling tickets by cash)
- Two validators with color touchscreens
- Communication module with antenna

Passengers distribution

- About 50 % using fixed-term tickets
- About 40 % using e-purse tickets
- About 10 % buying tickets in buses by cash

Electronic pupil certification

- There are about 12000 pupils in Šiauliai
- Every Šiauliai pupil has electronic certification
- Electronic certification is fully compatible with e-ticket card and can be used in buses
- There are more functions realized in electronic certification

E- ticket system development

- More places for supplementing e-tickets
- Various methods for paying in buses

Thanks for attention.
